

SOUTH ONTARIO

Longest Electric Railway in the World!

ELECTRIC LIGHTS.

AN EFFICIENT WATER SYSTEM WITH CAST-IRON PIPES.

A NEW TOWN IN THE MIDST OF IMPROVEMENTS!

Parks, Fountains and Flower Gardens.

GRAND * OPPORTUNITIES * FOR * INVESTMENT!

Astonishingly Low Prices that will be Doubled at Close of Sale.

THE FOLLOWING LOW EXCURSION RATES HAVE BEEN ARRANGED WITH THE SOUTHERN PACIFIC COMPANY.

Los Angeles to Ontario and Return	\$1.00	San Gabriel to Ontario and Return,	\$1.00	Monte to Ontario and Return	\$1.00
Alhambra " "	1.00	Savanna " "	\$1.00	Puente " "	\$1.00
Spadra to Ontario and return	70c.	Pomona to Ontario and return	50c.		

Tickets now on sale at Southern Pacific Ticket Office 202 North Main Street, Los Angeles; Commercial Street Depot Ticket Office, Los Angeles; Depot Ticket Office, Los Angeles, and at Stations mentioned above. Special Train leaves Commercial St. Depot at 8:30 a. m. on Wednesday May 11, to return same day about 4 p. m.

The plot immediately south of the Pacific Railway at Ontario, so long desired for town purposes, has at length been secured, subdivided into lots, and is now placed upon the market. There is just being finished on this property a magnificent Bank Block, costing \$20,000, and the "Ontario National Bank" will commence business therein in the course of a few weeks. Three brick, plate-glass-fronted stores are also about ready for occupancy, and the contracts are let for a number of others.

A large Planing Mill and Sash Factory is in course of erection, and machinery costing \$15,000 is ready to be moved in. To this mill will be attached an extensive Lumber Yard, with private siding.

No lots except those occupied by the buildings named and other brick block now under contract have been sold, and none will be before the day of sale.

This is the best opportunity for investment yet offered, as immediately upon the close of sale PRICES WILL BE DOUBLED.

The Southern Pacific Railway runs through this plot, and a splendid new Passenger and Freight Depot has been erected.

The "Ontario Hotel," with its beautiful grounds—a

\$35,000 property—adjoins the plot, and the far-famed Euclid Avenue, 200 feet wide, runs through the center of it. Arrangements for continuing this avenue through to Rincon are now under way.

The Steel Rails for an Electric Railway to the mountains, and cast-iron pipes for an efficient Water System are now on the ground.

Prices have been placed very low, and large profits on small investments are assured.

North half of Blocks 66, 67, 68 and 69 will be sold with building conditions: purchasers to erect brick buildings, costing not less than \$2,000, within six months. No building conditions on other lots.

Lots 7 to 12 and 19 to 24, in Blocks 64, 71, 72, 79, 80, 87, 88, 89, 94, 95, 96, 97, 98, 101, 102 and 103, \$100 each; corners \$25 extra.

Lots 7 to 12 and 19 to 24, in Blocks 70, 73, 74, 77, 78, 81, 86, 90, 93, and the south half of Blocks 65, 66 and 69, \$150 each; \$25 extra for corners.

Lots 7 to 12 and 19 to 24, in Blocks 75, 76, 82, 85, 91, 92, 99 and 100, and the south half of Blocks 67 and 68, \$200 each; \$50 extra for corners.

Lots 1 to 6 and 13 to 18, in above-named blocks, will

be open for sale one week later, at double the above prices.

TERMS: Ten per cent. deposit at time of sale, and sufficient to make one-third in 30 days; balance in 6 and 12 months at 8 per cent.

The right is reserved of allotting any two lots in any of above blocks previous to day of sale, for immediate improvements.

Remember that this is not a paper town. Improvements that the other new towns expect to have in the course of years are here now. The settlement is here to support business, and brick blocks are going up to accommodate it. The radius of country tributary to South Ontario is large and thickly settled by a well-to-do and prosperous people, such as will amply support a large and thriving town.

Dwellings are already promised for all parts of the tract as soon as the lots can be obtained, and provision for a fine Presbyterian Church has been made.

To enlarge upon the marvellous beauties and productiveness of Ontario would be a work of supererogation, so well is the model colony known—not only in California, but throughout the entire Union. Euclid avenue, which runs through the center of the tract now offered for sale, is admittedly the most famous avenue, not only in America, but in the world.

This is no New Town in a raw and unsettled District, but is adjoining some of the finest improvements in the Valley, and is to be the Business Town of the "MODEL COLONY" of the World.

OPINIONS OF ONTARIO, From Prominent Public Men and Well-known Newspapers.

"Ontario, the beautiful and altogether lovely—this Eden of beauty."—[Hardy (Nebraska) Herald.]

"During the past winter I spent three months in traveling over Southern California and I have no hesitation in saying that Ontario is the most desirable, the most beautiful and the most promising colony that I visited in all my travels."—[Senator Ensley, of Auburn, Indiana.]

"Better water privileges or better land cannot be found in California."—[Montreal Witness.]

"With an unsurpassed location, with excellent educational facilities, with ten passenger trains a day, and with whisky absolutely ruled out, it is entitled to be called the model colony of the world."—[Rev. Dr. Compton, Colusa, Cal.]

"Ontario, I believe, has no equal as a health resort."—[Dr. C. R. Sykes.]

"Ontario is, without a doubt, the best planned, the most progressive and promising settlement in Southern California."—[University Catalogue.]

"Of all her cities and towns, San Bernardino has the most reason to be proud of Ontario."—[San Bernardino Courier.]

"Ontario will undoubtedly be able to keep its place at the head of the class."—[Rural Californian.]

"Ontario must constantly increase in importance."—[Los Angeles Herald.]

"Ontario's star is in the ascendant, and it promises to rise higher and shine brighter as the years go by."—[Weekly Record.]

"Ontario is the prettiest among the many beautiful gems of San Bernardino Valley."

"Wherever the Golden State has been heard of, there the fame of Ontario, the model colony, has penetrated."

"All admit that Euclid avenue is without a peer, either in this country or any other, and will, in a very short time, be the most celebrated driveway in the world."

"Ontario is marching along from its own inherent worth simply because it is what it is—one of the most beautiful, productive and prosperous places in this semi-tropic land."

"Ontario has made a greater relative growth in population

and improvements the past year than any other town in San Bernardino county."—[Los Angeles Express.]

"From the north the snow-capped peak of San Antonio looks down upon this elysian retreat."

"The water here supplied for domestic use is pure, clear and sparkling, and brought from the cool grottoes of the snow-clad mountains."

"California can produce no finer raisins than those that were grown and cured at Ontario last season."

"With the aid of its equable temperature and abundance of water, its rich soil produces superior oranges, lemons, grapes, and semi-tropical fruits of all kinds."—[Los Angeles Herald.]

"For health, comfort, enjoyment and profit in citrus culture combined, Ontario, the gem of the mountains, is without a peer."

"Ontario is undoubtedly at the present time one of the very best points in the entire State for investments."

"Her attractions are such as draw with irresistible force the moral, the intelligent, the educated and the refined."—[Los Angeles Times.]

"Ontario is as pretty as a picture."

"A park of eight or ten acres, with handsome walks and drives, cypress hedges, trees and flowers and fountains, is the first thing one sees when he steps off the train."

"The town has an exceptionally bright future."

"An electric railway is to be built at once from the Southern Pacific depot to the San Antonio Heights. The superb water pressure affords cheap motive power for the electric railway, and electric lights throughout the colony will come along with the railway, the arc for streets, and the incandescent for indoor lights."

"This favored and model—in fact, ideal colony."

"Here, at Ontario, then, we find on this New Year's day, 1887, a settlement of cultured and intelligent people with a college, schools, public libraries and churches, but no saloons; a settlement which is rapidly growing, and in which \$100,000 was expended in building last year; a settlement which has

passed beyond the experimental stage, and is now an assured success."—[Los Angeles Tribune.]

ELECTRIC ROAD.

"The rails have arrived for the electric road, and are being unloaded."—[Ontario Record, April 20th.]

"The water at Ontario is shown by chemical analysis to be absolutely pure, and it is as abundant in quantity as it is pure in quality."

"It is no boast to say that as a health resort, Ontario bears off the palm against any section of the American continent whatsoever."

"The most beautiful, productive and healthy spot in the most slightly and fertile valley in the State."—[Rural Californian.]

"Having been absent from this charming place for the space of six months, we were anxious to see how it looked under the pressure of a full-sized boom. It is behaving splendidly. The rushing Santa Fe has added a mighty impetus to the on-rolling tide of prosperity. We came away very sad that we had not secured a little of that rich and mellow soil."—[Southern California Christian Advocate.]

WATER PIPE.

Two car-loads of cast-iron pipe have arrived, and fifteen more are on the way from St. Louis. This is designed by the Land Company for San Antonio Heights and for the town below the Southern Pacific. The pipe is of the best and heaviest character, ranging in size from six to twelve inches, and has all been tested to 500 pounds pressure. The first shipment will make about four miles. The company has seventeen cars more of wrought-iron pipe ordered—3, 4 and 5-inch; this is for the smaller lines. We believe this is the largest shipment of pipe yet made from the East to any point in Southern California outside of Los Angeles, and indicates that Ontario is at the front in solid improvement.—[Ontario Record, April 20.]

SALE to commence on Wednesday Morning, May 11, on arrival of Excursion Train.

On and after Saturday, May 7th, Maps may be seen at the office of the Ontario Land Co., 10 Court St., Los Angeles.

Quite Like Horace Bell.

Yesterday two more libel suits against this paper were filed by H. H. Boyce, asking damages in the sum of \$50,000 each. The alleged libels are the editorials published in these columns last Saturday and Sunday, respectively. The summons in the first suit was served yesterday afternoon. This makes three suits by "Smoothy" against THE TIMES for an aggregate of \$150,000.

Meanwhile THE TIMES continues on the even tenor of its way, secure in the knowledge that it can fully substantiate all its charges—and many more equally damning ones—and ready to do so at the proper time. It has nothing to take back. It has made fights before on principle, and won them. It expects to win this fight and others in the future. The proposition that a bad man, an impostor and a swindler should be exposed in the interest of society, is incontrovertible. Truth and right are winners in this world, despite the croaks of pessimists; and if THE TIMES has been remarkably successful in many hard-fought battles, it is because it marched under the banner of these principles—and had very much the same foes as are now standing with Mr. Boyce.

THE TIMES does not propose to have its attention distracted by the distressed kiyis of certain newspapers, which Boyce has set at its heels. It is content to stand alone, as it did for high license, and push steadily on to its purpose, which is, in the present case, to see that the public has no longer any excuse for being gulled. The suspicious manner in which certain contemporaries are swallowing the Boyce cause whole is already defeating its own object with people who are intelligent enough to ponder upon the reasons for this violent championship, and to remember that the same papers have in the recent past as violently championed against THE TIMES other bad men, who were at last fully exposed and were set down upon by the people.

The chief defense offered by the Boyce gang is the willfully false allegation that THE TIMES—or its editor—has such a personal hatred of Boyce as to be willing to attack legitimate enterprises in which he may be engaged, and injure others for the sake of hurting him. This is a truly "Smoothy" line of defense—an appeal to the pocket. The truth is that THE TIMES has treated Boyce precisely as it would treat any other man whom it

knew to be a swindler and dangerous to the public. The editor of a newspaper has not the time to acquire personal feelings, either kindly or hostile, toward a tithe of the men whom it is his duty to expose. Given the fact that the fellow is a scoundrel, and that is enough for the honest and conscientious journalist. The gang may keep up their cunning cry of "personal spite"—of course none of them are showing any—as long as they like. It is not the first time similar attempts have been made to shut up an honest newspaper, nor the first time that the attempts of the connabulators have failed.

The course of THE TIMES in this matter is based on the same principles which have made it respected in this community by those whose good opinion is best worth having. It is fortified by a record of steadfast championship of honor, morality and good government, and a courageous and unflinching opposition to that which is immoral, dishonest and degrading—a record to which its owners can point with honorable pride. In the present instance it asks no favors. It is sure it is right, and it will go ahead, turning neither to the right nor the left.

Railroad Changes.

In another column will be found the official announcement of important changes in the directory of the Atchison, Topeka and Santa Fe Railroad. First Vice-President and General Manager C. W. Smith resigns the latter position, to which J. F. Goddard—late traffic manager and assistant general manager—is promoted. The appointment is for the whole Santa Fe system. Mr. Smith, to whose brilliant, far-sighted and thorough-going administration the road and the sections which it traverses are so largely indebted, will retain the office of first vice-president. W. F. White, the long-time general passenger and ticket agent of the system, is promoted to be general traffic manager—a well-merited honor to one of the most valuable officers in the employ of the company. Several other changes are noted, all of which interest Southern California.

THE TRIBUNE, which could no longer keep on its gauzy mask of non-interest in Boyce, came out yesterday with an editorial as vilely malicious as its effusions are usually laughably idiotic. THE TRIBUNE does not feel it necessary to reply very seriously to the charge of blackmail preferred by this upstart Boyce sheet, whose own pages are open to any advertising offered with money. The record of THE TIMES in regard to such matters is well enough known here to need no defense. One of the few daily newspapers in the United States which steadfastly refuses to publish any saloon advertisement, no matter how gilded, it has also exposed many persons who were paying it large sums for advertising, and thereby lost money, but saved principle, when it discovered the advertiser to be crooked. The case of G. Hamilton Griffin is one of the most recent ones, and the public will have no difficulty in remembering others. As to the Gladstone advertisement, Mr. Boyce's sheet is informed that THE TIMES never solicited it. That the common principles of all honest men should be inapprehensible to the Tribune is natural; but it should have sense enough at least not to over-reach itself so in its venom.

SUNDAY'S TIMES contained a full telegraphic account of the killing of a man supposed to be Pete Olsen, the Napa murderer, in the backwoods of Kern county, on Friday. The Tribune got around to tell the same story Monday—by which time THE TIMES was able to print the fact that the dead man was not Olsen at all. The Tribune may discover that also by this morning. This is one of the advantages of a "metropolitan" grapevine service.

LAST night's fire showed clearly a great danger that threatens the city. The pressure at the hydrants in one of the finest residence portions of the city was so ridiculously inadequate that only by great good fortune and violent exertion did the firemen keep the blaze from becoming general.

AMUSEMENTS.

GRAND OPERA-HOUSE.—The lovers of burnt-cork minstrelsy may expect to be gratified tomorrow evening, when Baird's Minstrels will open for a short season.

NATIONAL OPERA COMPANY.—This large organization will open on the 16th at the pavilion. The repertory includes their best successes in San Francisco, namely: *Lohengrin*, *Tristan*, *Lohengrin*, and *The Flying Dutchman* for the four evening performances, and *The Merry Wives of Windsor* for the matinee.

Considerable discussion has taken place among the subscribers for season tickets regarding the distribution of seats. There should be no favoritism shown, nor should there be any playing into the hands of speculators. The best plan suggested, and one that McLain & Lehman may perhaps adopt, is to place the names of all subscribers in a box, and let them be drawn by lot; each subscriber to be entitled to select the seat for which his name is down, in rotation, as the names are drawn. The drawing to take place, say in Armory Hall, at a time to be announced. This would save a weary waiting in line and also the inevitable dissatisfaction which will be felt in some quarters if any other scheme is adopted.

Another Man.

In Saturday night's raid on the Turr Club faro game a fellow was arrested who gave his name as James Dameron—doubtless a fictitious one. At all events, it was not the well-known lawyer, J. M. Dameron. The trick of criminals giving the names of well-known citizens has been played here before, and has caused much annoyance. There ought to be some way of punishing such impersonation.

PORTER ASHE.

The Baby Sent to the Crocker Mansion—All Quiet.

All was quiet yesterday in the Porter Ashe case. Ashe is still out of town, but is expected back today or tomorrow, when something new may turn up. Having served notice upon Ashe's attorneys, Mrs. Ashe's attorneys applied to Judge Gardner for an order to have little Alma transferred to the Crocker mansion. At 3:30 Judge Hutton signed the following order:

JUDGE GARDNER'S ORDER.

In the Superior Court of the State of California, in and for Los Angeles county. In re the habeas corpus of Alma A. Ashe, a minor. Upon motion of Graves & O'Melveny and H. T. Gage, attorneys for petitioner, it is ordered that the Sheriff of Los Angeles county be and he is hereby ordered to take said minor, Alma A. Ashe, to the house of her grandmother, Mrs. E. B. Crocker, in this city, there to be kept in his custody until the hearing of said matter set for May 4, 1887; and it is further ordered that the child may be taken, when the father is in this city, to the Nadeau House, from time to time, by the Sheriff, there to be visited by the father, if so desired. W. P. GARDNER, Judge. May 2, 1887.

LAWYERS WITHDRAWAL.

Most of Ashe's attorneys were out of the city; and when the above order was issued Shaw & Dameron instantly withdrew from the case, declining to have anything more to do with it. They felt that the order was unfair to them.

ALMA AT HOME.

A copy of the order was at once given to Sheriff Kays, and he proceeded to carry out the instructions of the Court. Alma was removed from the Nadeau to the Crocker mansion, and the child, who had been left in charge of the Nadeau family, was taken to the Crocker mansion. The child seemed delighted to be at home again, and her childish footsteps and laughter echoed happily in the large hall when a representative of THE TIMES called at 4:30.

SENSATIONAL DISPATCHES.

Some most rabidly sensational and utterly false dispatches have been sent from here to San Francisco papers about this case. They were largely made up from the wildly absurd account in Saturday's Express. Sunday's Examiner had a column and a half of sensational rot, bristling with untruths. A representative of THE TRIBUNE called yesterday afternoon at the Crocker mansion and called Mrs. Ashe's attention to the Examiner's story. She said: "This statement that I spoke to him, and that he wept, and that his wife, Mrs. C. Ashe, has lived separate from him for the last six months, or at all; avers that he is a fit and proper person to have the care of the child, and is peculiarly able to support it; and charges that his wife is a person of bad habits, to have the care of the child."

This paper will not be filed till Ashe's return.

ASHE'S ANSWER.

Ashe's attorneys yesterday prepared an answer to Mrs. Ashe's petition for the custody of the child. He reaffirms the allegations of his answer to the original writ; denies that his wife, Mrs. C. Ashe, has lived separate from him for the last six months, or at all; avers that he is a fit and proper person to have the care of the child, and is peculiarly able to support it; and charges that his wife is a person of bad habits, to have the care of the child.

This paper will not be filed till Ashe's return.

PORTER'S PISTOL.

The Ashe concealed weapon case was brought up at 9 o'clock, and the City Attorney and Mr. Gage appeared in court and agreed to a discontinuance of the case on the grounds that the defendants were travelers and had a right under the ordinance to carry concealed weapons. He also stated that there was not sufficient evidence to show that they actually had weapons on their persons. The cases were dismissed.

BRIEFS.

Two suits by the First National Bank against Hamlet R. Brown were dismissed yesterday.

Mrs. H. L. Watson has already secured \$100 for her noble project—the establishment of a home for girls who go astray.

P. R. Froelich, hoseman of Engine No. 1, was discharged by the Fire Commissioners for inattention to duty. He intends to have his name reinstated.

There are messengers in the Western Union office for G. P. Clapp, Miss Sarah Harrington, John W. Meldrum, E. E. Raught, Juda Rich, James W. Ruddock.

Chinese Offenders.

Officers Able and Bowler booked Ah Lee, Ah Waugh, Ah Jim, Wah Lee, Ah Charlie, Ah Low, Ah Sam and Ah Fay at the station at 11 o'clock last night for violating the laundry ordinance. Their shop at a corner of First and Fort. Each deposited \$5 and was released.

A Full Supplement.

The report of yesterday's Council meeting, two new libel suits by H. H. Boyce against THE TIMES, the G. Hamilton Griffin trial, the courts, steamer and Pullman lists, and considerable other local news, will be found in the supplement this morning.

A Smashed Hand.

A switchman, named Montgomery, was coupling a train at the new depot early yesterday morning, when his left hand became caught and the fingers were badly crushed. He was taken to Dr. Kurtz's office and his wounds were dressed.

Sneak-thief.

During the fire excitement last night some sneak-thief walked into the wine store at 42 Spring street and carried off the money-drawer, with its contents, amounting to \$5 or \$6. He escaped with his haul, leaving no clew behind.

Base-ball.

The Santa Monica base-ball grounds will be opened next Sunday by the Peck & Ruggles and the Santa Monica nines. The managers of the grounds are making great preparations for the opening.

Portland's Handsome Church.

PORTLAND (Or.), May 2.—This afternoon the cornerstone of the new First Presbyterian Church, at Tenth and Alder streets, was laid with imposing ceremonies. The structure will cost between \$125,000 and \$150,000, and will be the finest church building on the coast north of San Francisco.

The Visalia Election.

VISALIA, May 2.—The city election passed off quietly today. Three hundred and seventy-seven votes were polled. The fight was centered on City Marshal, there being three candidates in the field. The present indications are that the entire Citizens' ticket is elected.

Election at Butte, Mont.

BUTTE (Mont.), May 2.—In the city election today William R. Kenyon (Dem.) was elected Mayor. The Democrats also elected the City Marshal and two Aldermen. The Republicans elected the Police Magistrate, City Attorney, Treasurer and two Aldermen.

The new Harvard Law Review—the initial number having just appeared—promises to be of great value. The articles are timely and able.

By Telegraph to The Times.

LONDON, May 2.—[By Cable and Associated Press.] In the House of Commons tonight Healy moved that the first clause of the Crimes Bill be amended so as to indicate clearly to what portion of Ireland it would be applicable. He suggested that the words "proclaimed districts" be omitted and that Kerry, Londonderry and Belfast be inserted in their stead.

Balfour, Chief Secretary for Ireland, declined to accede to his proposal. He said the government intended to apply the clause to all parts of Ireland where the prevalence of crime justified such action.

Healy asked if bloodstained Belfast, where troops had been shot and policemen murdered, was to be free, while the miserable rack-rented districts in the southwest were to be punished.

Balfour replied that the government would exercise perfect impartiality in suppressing disorder everywhere.

Labouchere said the scope and aim of the bill was to crush out the Nationalists, leaving Orangemen to do anything they liked. The administration of the law was so bound up with the Orange faction that it could not be impartial.

Gladstone suggested that the words "proclaimed districts" remain, but that the districts be defined under another clause of the bill. The answer of Mr. Balfour was that all districts would be treated impartially, but not sufficient, because the ministers had often referred to particular parts of Ireland as being more lawless than others.

A New Candidate for the Los Angeles Postoffice—A Washington Territory Delegate Indulges in a Vigorous Denunciation of Cleveland's Methods.

By Telegraph to The Times.

WASHINGTON, May 2.—[By the Associated Press.] Acting Secretary Muldrow has affirmed the decision of Commissioner Sparks of the General Land Office, rejecting the application of the State of California to select as indemnity school land the double minimum in lieu of the minimum. This decision follows that of the department in the recent case of the State of California vs. Smith.

Acting Secretary Muldrow has directed the Commissioner of the General Land Office to demand from the California and Oregon Railroad Company a reconveyance to the United States of a section of land in Marysville, Cal. The land was patented to the company March 17, 1879. It appears, from special reports and affidavits accompanying the same, that said section is unquestionably gold-bearing mineral land.

THE LOS ANGELES POSTOFFICE.

A new candidate for the Los Angeles postoffice looms up in the person of C. E. Owen. The case, however, will not be disposed of for the present.

A petition has been received here from Sespe, Ventura county, asking for the establishment of a postoffice there.

THE WHEAT DEAL.

The Chicago Cliche Buying Everything in Sight.

CHICAGO, May 2.—[By the Associated Press.] The bull houses accepted and paid for all the cash wheat offered them at the delivery hour this morning. The cliche houses paid for cash wheat \$1.07. This is the most important move so far made in the deal, and has annoyed the crowd as much by its immensity as it puzzled them by its queer tactics. The brokers stood round in crowds on the curbstone long before 9 o'clock this morning in hope that the deal would leak out before the delivery boys went up stairs. Very little information was given and at 9 o'clock they crowded in, Kershaw & Co. had six clerks, with Eggletons, a partner, himself in charge. The cliche houses paid for cash wheat \$1.07. Detectives Very Mum About the Trail-robbers.

The Alleged Tucson Clew Proves Only an Arizona Fable.

Inquiry into the Death of the Man Shofor Olsen.

Verdict of Guilty issue Todd Will-forestry Case—Decision splitting the Title to the Muscupiabe Ranch—Porter Ap at Frisco.

By Telegram to the Times.
DENVER (Ariz.), May 2.—[By the Associated Press.] A reporter has just interviewed prominent officers now in this city hunting for the trail-robbers and evidence against them. The greatest caution is being exercised about giving any news to the press, but enough was gleaned to justify the opinion the good clews were being followed up and that the field of operations was growing larger. It is generally conceded, however, that a majority of the bandits are in the Territory, probably in Tucson, but it is strongly suspected that two or more have succeeded in getting out of Arizona. Much preference is being placed on the value of a letter found in San Francisco, which proving a good tracer. This letter is now in the hands of the authorities in this Territory.

AN ALLEGED CLEW EXPLODED.
SAN FRANCISCO, May 2.—Detective J. N. Thatch of Wells, Fargo & Co., who was sent here to Tucson to trace the Papago trail-robbers, sent the following dispatch today to the company's headquarters in this city:
"TUCSON (Ariz.), May 2.—No tangible clew to trail-robbers. The clew here has been exploded."

THE MINERS' WAR.

The Anti-Debris Association Defines Its Position.

MARYVILLE, May 2.—[By the Associated Press.] The directors of the Anti-Debris Association and their advisory committee of forty play unanimously adopted the following:

"Whereas, it is continually reiterated by the hydraulic miners and their organ, notwithstanding the repeated assertions to the contrary by the Anti-Debris Association of the Sacramento Valley, that our people are hostile to all kinds of mining and that we intend to enjoin quartz and drift miners; therefore be it
"Resolved, once more by the directors of the Anti-Debris Association and their advisory committee, that we have no quarrel or cause of action against quartz mining, and none against drift mining, when legitimate conducted, as in the past."

RESULT OF A POLL.

A Juror in the Todd Forgery Case Upsets the Verdict.

OAKLAND, May 2.—[By the Associated Press.] The case of Walter B. Todd, indicted for forgery of the will of John Morton Todd, under which he was to receive \$40,000, was given to the jury on Saturday. They failed to agree, and were locked up with instructions to return a sealed verdict, if they came to an agreement before this morning. The verdict was presented yesterday, and the jury was released. The verdict was opened today and found to be "guilty," and a poll of the jury was demanded, when W. A. King, one of the jurors, refused to assent to the verdict. The judge again ordered the jury to retire for deliberation.

OAKLAND, May 2.—The jury in the Todd will forgery case returned a verdict against this afternoon of guilty.

SAN LUIS OBISPO.

Railway Matters—A Suspicious Stranger Under Arrest.

SAN LUIS OBISPO, May 2.—[By the Associated Press.] Today assurances have been given that work will commence on the extension of the railroad from Templeton toward this city as soon as the graders reach Santa Barbara, which is expected this week. The road will cross the range by Cañada Luis, entering the northern part of the city.

A SUSPICIOUS CHARACTER.
Louis Smith was arrested here today on suspicion of horse-stealing. He purports to come from Fresno, and obtained some money on a check on the First National bank of Fresno for \$300. The check was signed "R. E. Hildwell," and the banks have refused to recognize it. Smith is in jail.

SEIBERT OR OLSEN.

Investigation of the Homicide in Kern County.

BAKERSFIELD, May 2.—[By the Associated Press.] The memorandum book and letter of M. H. Siebert, required by the Coroner, were brought here tonight, and the request will be resumed tomorrow. There are many here who still firmly believe that the dead man is Olsen.

TEHACHEPI, May 2.—Henry Siebert, supposed to be the man killed by Pete Olsen, near Bakersfield, lived in this vicinity in 1873, and kept a station on the Owen River road for about two years. He disappeared from there, and no one knew of his whereabouts until now. He was a German, and when here about 28 years old. Indignation is expressed here at the way he was killed.

SAN FRANCISCO.

Porter Ashe Arrives, but Is Not Disposed to Talk.

SAN FRANCISCO, May 2.—[By the Associated Press.] Porter Ashe arrived here today from Los Angeles. He refused to say anything about his trouble with his wife, further than to remark that he was not satisfied with the child being in her custody, and meant to exercise a father's right to place it in better hands.

PILOT PELLETIER'S CASE.

Judge Sawyer today awarded \$3000 to Pelletier, the pilot, who over a year ago libeled the British ship Occidental for bringing him here from Liverpool against his desire, while acting as pilot for that vessel.

APPOINTMENT.

Luke Fay, of this city, has been appointed by Postmaster-General Vilas additional railway postal clerk on the route between San Francisco and Los Angeles.

NO FRAUD.

The Title to the Muscupiabe Ranch Held Valid.

SAN FRANCISCO, May 2.—[By the Associated Press.] The suit of the United

States vs. John Hancock was decided in favor of the defendant this morning in the Circuit Court. The suit was brought to have the title to the Muscupiabe ranch, in San Bernardino county, declared void. The old Mexican grant was acknowledged to be good, but it was alleged that when the land was surveyed at the time the United States patent was issued 30,000 acres were wrongfully included in the ranch, and that fraud and misrepresentation were used to secure the title. There are forty-nine persons who would be affected by a change in the title at the present time. It was shown in court that instead of the ranch being too large, as charged, the boundary lines might legally have been run so as to include a square league of land more than they do. No evidence of fraud was introduced, and it was found that the Land Office had carefully investigated the matter fifteen years ago, when the patent was issued.

DELUDED NORWEGIANS.

Another Batch of Recruits for the Mormon Empire.

CHATTANOOGA (Tenn.), May 2.—[By the Associated Press.] Three hundred Norwegian emigrants passed through this city last night for Salt Lake, whither they go to join the Mormon colonies in the West. They came by way of Norfolk and are the most respectable-looking emigrants who have arrived in this city for many days. The party is composed of men, women and children and all seem intelligent, are well-dressed and seem to have money. They seem to regard Utah as possessing all the riches of the promised land. They are accompanied by several Mormon elders who have been in Norway on a proselyting tour. Many of them, however, do not seem to understand the polygamous nature of the Mormon faith and several of the women, when told that they were liable to become wives of men already wedded, opened their eyes and stated that they would never submit to such proceedings. Many of them have evidently been deluded into coming to America and espousing the Mormon faith.

A District Attorney's Defalcation.

LONG ISLAND CITY (N. Y.), May 2.—At a late hour last night Justice Brandon issued a warrant for the arrest of District Attorney Thomas F. McGowan, on complaint of Supervisor Van Ness, of Newton, who charges McGowan with misappropriation of the town funds. McGowan is believed to have fled to Canada. He left here Saturday, in the afternoon, and did not return. The actual amount of the defalcation, so far as known, is \$19,000.

THE RAILWAYS.

Union Pacific Bound to Run Into Chicago Over Its Own Line—The Rio Grande's Annual Meeting.

CHICAGO, May 2.—[By the Associated Press.] The Times says: "It is said that with the development of the Union Pacific under Mr. Potter's management will come certain extensions and traffic arrangements, which will virtually give the system control of a line from Council Bluffs to Chicago. As the Atchison, Topeka and Santa Fe found itself hampered and blocked at the Missouri River, where it was forced to yield up the freight it had gathered throughout its territory, so with the Union Pacific, which is compelled to hand over to its rivals and competitors its business, and feed their system with traffic which it secures in the West. It would be in line with the old policy of the general manager of the Burlington, when he assumes the reins of the Union Pacific, to bend his energies toward securing that desired Chicago outlet. Indications point to a lease of the St. Paul and Omaha line, if the desired Congressional legislation can be procured, and there are many operators firmly grounded in the belief that if all goes well and the Union Pacific's obligations to the Government are clearly defined and nationally settled, twelve months will see the scheme carried to a successful conclusion."

THE DENVER AND RIO GRANDE.
DENVER (Col.), May 2.—At the annual meeting of the board of directors of the Denver and Rio Grande road, held at the Windsor Hotel today, the resignation of President W. S. Jackson, which was sent in some weeks ago, was accepted. David H. Moffat, president of the First National bank of this city, was unanimously chosen to succeed him. A resolution thanking Mr. Jackson for his creditable and efficient management since the reorganization of the road was presented and adopted. Mr. Moffat was re-elected director, and Walter S. Cheesman was chosen director to fill the vacancy caused by the resignation of Mr. Jackson. Immediately after his election Mr. Moffat appointed T. T. Smith, general superintendent of the Kansas Pacific, general manager of the Denver and Rio Grande. All the old officers of the road were re-appointed directors. They start to inspect the road tomorrow morning.

THE FIRST TRAIN.

SAN FRANCISCO, May 2.—The first train of the California and Oregon road, known as the Portland express, which left here yesterday at 4 p.m., arrived at Homestead, the present terminus of the road, on time, at 9:30 this morning, with thirty-three passengers en route for Portland and points north. The through trip will be made in forty hours.

The Signal Service summary for April shows that during the month the highest temperature was 87°, and the lowest 40.3°. Rain fell on five days, the total precipitation being 2.35 inches.

An Outlaw's Den Discovered.

BAKERSFIELD, May 2.—Deputy Sheriff Andy Newman, who has been searching for six weeks for two horse-thieves, by accident came upon a rendezvous of horse and cattle thieves. It is located in Idaho, at the confluence of the Grand Ronde River with the Snake, about 200 miles east of Bakersfield. Here he found an organized band of refugees from the law, numbering twenty-five or thirty men, well armed and equipped. The horses and cattle which are stolen in southeastern Oregon are hidden here and then driven east. Being alone, he could make no arrests.

Large Fire at Louisville.

LOUISVILLE (Ky.), May 2.—The large warehouse of Brown, Johnson & Co., fourteenth and Maple streets, together with the nine-story grain warehouse of Stridlon Bros., adjoining, and freight cars loaded with grain, was burned this morning. Loss \$250,000.

Another Cheap Erie Excursion Starts for the East Notwithstanding the Ruling of Mr. Goodman That Such Trips Are in Violation of the Interstate Law.

By Telegram to the Times.

ALBUQUERQUE (N. M.), May 2.—[Special.] The west-bound California express over the Atlantic and Pacific road, leaving Albuquerque at 3 o'clock this morning, met with an accident near Coolidge, delaying the train fifteen hours. Several cars were derailed, but, fortunately, no one was injured.

A California excursion train, composed of New England people, spent several hours in the city, and left at 9 o'clock.

SLIPPED AWAY.

Another Prohibited Cheap Excursion Starts East.

SAN FRANCISCO, May 2.—[Special.] Much surprise was expressed by local railroad agents on learning that J. S. McCall, of the Erie, in spite of the prohibition of Mr. Goodman, had again succeeded in floating off one of his third-class excursions, this time the largest one of the season. The excursion in question, which left the Oakland mole this evening, consisted of some ninety persons, under the charge of a minister who happened to be going East. Considerable reinforcements were received at Sacramento, so that when the train moves out of the depot there tomorrow it will have fully 125 passengers on board. The only difference between this excursion and the ones that have preceded it is the fact that it was set on foot and conducted very quietly. Very few even of the rival agents knew anything about it until a few days ago, and then, of course, it was expected that the excursion would be disposed of. Instead, however, it has been allowed to proceed, and now all the lines which have no interest in these excursions are complaining. Mr. Goodman's action in prohibiting these excursions was originally taken at the request of the eastern trunk and Iowa lines, in view of the fact that the passage of the Interstate Law prohibited all pooling of proceeds; consequently, the money which proceeded from them all went to one line instead of, as previously, being divided among several. The excursions, as advertised by Mr. McCall, offered considerable inducement to passengers in the shape of extra bedding and other conveniences. Mr. Goodman held that these inducements constituted a breach of the Interstate Law, in view of the fact that they were discriminations, and he further stated that they interfered seriously with first-class business. The other lines intend, it is said, to take immediate action, and set on foot similar excursions themselves. So if all carry out their threats there will be sufficient excursion projects of this description to transport the entire population of California to the other end of the continent.

COMING SOUTH.

The National Opera Company to Sing in Los Angeles.

SAN FRANCISCO, May 2.—[Special.] Mr. O. G. Weyse, of Los Angeles, has been in this city two or three days negotiating with the National Opera Company, and today signed the contract by which he personally guarantees the company about \$20,000 for five performances of grand opera at the Pavilion, beginning May 10th. The National Opera Company agrees on its part to produce its operas in the same magnificent style which has characterized the series of brilliant operatic representations in San Francisco. Messrs. McLain and Lehman are attending to the local business arrangements and report the utmost interest in all circles over the coming season of American opera.

The National Opera Company opened on its third week here tonight with Rubenstein's Nere. The advance sales for it were over \$5000 and the Grand Opera-house was again filled with a fashionable audience. The success of the company here is so great that it is probable that an extra week will be given.

Messenger Frothingham's Trial.

ST. LOUIS, May 2.—The case of David S. Frothingham, alleged to have been an accomplice in the robbery of the Adams Express car in a St. Louis and San Francisco train, by Jim Cummings, some months ago, was called in the Criminal Court this morning, and both sides announcing their readiness for trial, the work of unpanneling a jury was proceeded with at once. At 2 p.m. four jurors had been obtained.

New Domestic Lime.

The Los Angeles Storage Commission and Lumber Company, San Pedro street, near Third, have the agency of the "Summit Lime Company," of Tehachapi, for their manufacture of lime. They guarantee it of the best quality, it being manufactured by the H. T. SANTA FE SYSTEM.

J. F. GODDARD GENERAL MAN-
AGER, VICE C. W. SMITH.W. F. White Traffic Manager, in
Place of Mr. Goddard—Deserved
Promotion of Brilliant Railroad
Men—Other Appointments.

The following official circulars received in this city yesterday give notice of most important changes in the railroads which most deeply concern Southern California: ATCHISON, TOPEKA & SANTA FE R.R. CO., TOPEKA, KAN., April 21, 1887.

Mr. J. F. Goddard is promoted to the position of general manager, the authority of which office will extend over the Southern Kansas railway, as well as over the Atchison, Topeka and Santa Fe Railroad and branches. The appointment to take effect May 1st next.

First Vice-President.
WILLIAM B. STRONG, President.
ATCHISON, TOPEKA & SANTA FE R.R. CO., TOPEKA, KAN., May 1, 1887.

Mr. W. F. White is promoted to the position of traffic manager of this railroad and branches, and also of the Southern Kansas railway, the appointment taking effect as of this date.

Second Vice-President.
C. W. SMITH, First Vice-President.
Another circular signed by Vice-President Smith announces the appointment of George R. Peck as general solicitor for the Atchison, Topeka and Santa Fe Railroad, its branches, with headquarters in Topeka, appointment dating from April 1st.

A circular of the Chicago, Kansas and Western Railroad announces the appointment of J. F. Goddard as general manager, with headquarters at San Bernardino. To take effect May 1st.

A circular signed by Vice-President C. W. Smith appoints W. F. White traffic manager of the California Southern Railroad, with headquarters at San Bernardino. To take effect May 1st.

A circular signed by Second Vice-President William B. Strong appoints W. F. White traffic manager of the Pacific Railroad, with headquarters at San Bernardino. To take effect May 1st.

A circular signed by General Manager J. F. Goddard appoints W. F. White traffic manager of the Chicago, Kansas and Northwestern Railroad.

C. W. Smith, the railroad giant, whose name is now a household word in Southern California, retains his position as first vice-president of the great Atchison, Topeka and Santa Fe system. The new traffic manager, William Francis White, the new traffic manager of the system and its branches, is one of the brightest and most popular railroad men in the country. His two visits to Southern California made him host of friends, who will be glad to learn of his promotion.

Mr. Goddard is not so well known here, but the people of Southern California will soon have an opportunity to become his acquaintances. He is one of the coming railroad men of the United States—long-headed, energetic and progressive in his work, and a man to be personally known. It is not yet known where Vice-President Smith will have his office, but most likely it will be in Boston or Chicago. Vice-President Robinson will remain here as heretofore. Mr. White's successor has not yet been named. The present assistant general passenger and ticket agent, Mr. George T. Nicholson, is the natural heir to the position, but it is thought likely that the fact of his being a very young man, with a comparatively short term of service with the company, may cause him to remain where he now is in actual executive charge of the gigantic business of his department. It is certain, however, that if any young man is to have Mr. White's title, no one can be named more worthy to wear it than Mr. Nicholson.

Gorham-Stanley.
C. H. Gorham, one of the attachés of the County Assessor's office, was married last evening to Miss Libbie Stanley, of Indianapolis, Ind. The ceremony was performed at the Lindley, on Sixth street, by Rev. W. J. Chichester. Mr. Gorham's duties will keep him at home, and the young and happy couple will enjoy their honeymoon in the most appropriate spot—the City of Angels.

New Assistant Postmaster.
D. S. McCurdy, late in the postal service on the Atlantic and Pacific, with headquarters in Albuquerque, is now installed in the Los Angeles postoffice as assistant postmaster. Vice Capt. Carr, resigned. Mr. McCurdy was for many years in the Treasury Department at Washington, and comes here well recommended.

Vacation School.
A manual training school for boys is soon to be opened here during the vacation of the public schools. Prof. H. J. Jaschko, an experienced teacher, is about to leave his home in the city for the purpose of attending to the school. Parties desiring to have their boys from the streets, learning something useful for life, may address or meet the professor at room 12, Lichtenberg's block.

In Their New Quarters.

ESSAY NO. 2.

CLAREMONT!

THE BEAUTIFUL.

The newspapers are the enlighten-
ing influence of this age, the great-
est age the world has ever experienced.
They state that the Star of Bethlehem
is about to appear. They also state
that CLAREMONT is the beautiful
homestead of all the townites.

The old subject for discussion in the
lyceums of our boyhood was: "Which
is the greater power, fire or water?"
The Artesian belt, of which Claremont
is the great center, was then unknown
—could the early settler of the great
Mississippi River Valley have known—
but 'twas left for this age, "The Claremont
Age," to open up the crystal
fountains. Not by miles of poor iron
pipe, but clear sparkling water, pour-
ing forth its liquid wealth from the
depths of the earth, emblematical of
"Ponce de Leon's fountain of perpetual
youth."

The early Christian sang: "Could I
but stand where Moses stood and view
the landscape o'er," etc. They had
never seen or heard of sweet Claremont,
or they would not have referred to
Moses. The eye had not seen, the
ear had not heard of the visions of
loveliness that enchant the eye from
Claremont Heights. From the thou-
sands of orange trees come sweet
odors. Delicate green is the foliage
of the apricot orchards. Softly waves
the fields of growing grain. Delicious
spreads the shade of the noble oak.
Great, majestic, imperial, are the
mountains that seem so near. Glisten-
ing white are the peaks, emblematical
of all that is pure.

Serenely 'mid all this picture of the
beautiful and grand in nature lies the
queen of all—Claremont the beautiful.

Do you wonder that I have sold \$100,
000 worth of lots in a few days?

Do you wonder that those who bought
at first prices have been offered, and
many have accepted, 50 and 100 per
cent. advance?

Now, Claremont lots can be bought
for a mere trifle. The 1st of May they
will advance, making the price 25 per
cent. above the starting price.

George H. Fullerton, the president

A \$40,000 FIRE.

TWO LARGE BUILDINGS CONSUMED ON THIRD STREET.

The Old Skating-rink Furniture Warehouse Burned with Its Contents—"The Ashley" Goes—Other Buildings Barely Escape.

At 8:10 last night a young son of Mr. Fuller, of the firm of Fuller & Daley, went out in the stable back of his father's house, at No. 140 Hill street, and happened to look in the back of the furniture factory of Wachtel & Walton, which was located in the old skating rink on Third street, between Hill and Fort streets. He saw what he believed to be an explosion. In a few seconds the whole building was lit up and young Fuller gave the alarm of fire. The alarm was turned in from the police station, and in a very few minutes the engines were on the ground. The "J. Kuhrt's" was the first to get a stream on, although the others were only a second behind. The engines took their stands with the old No. 2 on the corner of Third and Hill; the J. Kuhrt's, Third and Fort; and the W. S. Moore at Second and Fort. The old No. 2 was first on the ground, and had a stream on almost as soon as the J. Kuhrt's. The W. S. Moore broke down at the start, but caught up, and before the fire was gotten down to coals she threw the best stream of any.

The Morris Vineyard hose-cart and the hook and ladder were soon on the ground and did good work. A Times' reporter was on the ground before the fire in the furniture factory had made much headway, and could plainly see through the windows that a large quantity of oil was on fire, near the center of the building. It burned so rapidly that almost the entire building was on fire before a stream of water was put on. By this time the streets were lined with people and a rush was made for the Ashley, a boarding-house which stood next to the factory, on the east side, and began to take the furniture out. The boarders were in the parlor and did not realize their danger until the strangers began to rip up furniture and take it out. The firemen saw at once that but little could be done to save the factory, so they turned their attention to the Ashley and the First Congregational Church, which stands to the west of the factory. The west side of the Ashley House was almost against the factory, and in a very few minutes after the alarm was turned in it was on fire. The inmates and the neighbors worked well, and only gave up removing furniture when the smoke drove them out of the building. The Ashley building burned almost as fast as did the factory, and almost every portion of it, except the east wall, was destroyed. The church was in great danger for half an hour, and the roof caught fire several times, but the firemen did good work, and through their bravery and energy, the structure was saved.

HEROIC FIREMEN.

The whole affair showed a fearful weakness in the city's means of protection against fire. The water pressure at the hydrants was so small that none of the engines could get enough water to throw a respectable stream. The best stream of water failed by thirty feet of reaching the church roof.

The best feature of the work done at the fire was the brave and faithful action of Judy and McLain, of engine No. 3, who stood between the church and the factory throughout the fire, and directed their stream against the church with remarkable skill. Their position was like a fiery furnace, but by the aid of two doors, placed at their backs, they managed to hold it. They did really heroic work, and deserve great credit.

The Morris Vineyard Hose Company—a volunteer organization, from whose zeal the paid department might well take a lesson—made the long run from California street, dragging their machine by hand, and reached the fire about as soon as any one. They did gallant work on the rear and roof of the church. T. J. Collins, nozzleman, and others, especially distinguished themselves. People who resided near the burning buildings became greatly excited and hustled their furniture out in all kinds of shapes. Mrs. J. M. Wiswell, who is lessee of the large house at No. 141 Fort street, had her furniture removed. The most of the furniture was removed from the church, and Mrs. Fuller, who has been quite sick, was removed from her house at 140 Hill street. By the time all the furniture in the neighborhood had been removed the firemen had the fire under control and the danger was over. It is not known exactly how the fire originated, but it is believed that it started in the oil which was stored in the center of the factory. The Ashley building was owned by J. W. Lankershim, and cost about \$10,000, fully insured. Mr. and Mrs. Robert Ashley occupied it and conducted a boarding-house. Almost all of their furniture was removed to the sidewalk in a badly damaged condition. It was not insured, and the loss is about \$1000. The factory contained about \$20,000 worth of furniture, which was partially insured. The firm intended to send \$5000 worth of furniture to the Santa Monica hotel today. The damage by fire and water to the church will probably amount to over \$2000. Several small buildings back of the Ashley House were burned, but the damage does not amount to over \$1000.

NOTES.

The officers think every crook in town was at the fire.

R. F. Hill reported an overcoat stolen from the church during the fire.

Constable Hunter knocked a man, who persisted in crossing the line, down.

A tin box, which seemed to be filled with coin, was picked up by P. F. Troul. It was marked "J. Conway."

James Wiley, a small boy, was caught with his pockets full of silver spoons by Capt. Tyler, and locked up.

Mrs. Wells, who boarded at the Ashley House, lost all of her clothing and quite a sum of money that she had in her room.

The church is fully insured with Dobson & Fairchild in the Imperial, London, Northern and Queen companies; also, in the Southern California.

A fellow named J. F. Lynch was caught by Officer Botello in the act of stealing a grip-sack from the Ashley. He was charged with burglary and locked up.

Deputy Constable Johnson pulled off his coat to work and hung it up near the church. When he returned for it he found that all of his papers had been taken.

Layton & King, who have opened the upper floor of the new Callahan block, corner Third and Spring, had \$1000 worth of furniture, uninsured, in the factory, which they were to take away today.

During the excitement at the fire a boarder in the Hollenbeck became excited and went off, leaving the gas so high in his room that the ceiling came near catching fire, and would have done so had not Officer McKee rushed over from the police station and put it out.

The names of the boarders, who lost almost all of their possessions in the Ashley House, are Mr. and Mrs. Edgerton, Mr. and Mrs. L. K. Webb, Mrs. M. A. Toye, Mrs. Wells, Mrs. Conway and daughter, Mrs. Masson, and the servant girls, Mary and Carrie. Mrs. Marie MacIntyre and her son also occupied rooms in the west side of the building, and when it was learned that the house was on fire the people had a hard time of it to get the lady out, for she was confined to her room with a broken leg. She was taken to the house of Mrs. J. D. Campbell, who resides at No. 212 Third street.

BURNED TO DEATH.

Horrible Coal-oil Accident on Chavez Street.

There was a horrible accident about 3 p.m. yesterday at 539 Chavez street. The house is a double frame, one side being occupied by J. C. Erhart and the other by James Baird. Mrs. Erhart was washing. Her three children and a boarder all had the measles. Mrs. Baird kindly took the youngest child into her side of the house to care for it while Mrs. Erhart was busy. In reaching over the stove, with the babe in her arms, Mrs. Baird knocked down a coal-oil can, which exploded. The blaze burned the babe so frightfully that its skin and fingernails dropped off. It died at once. In trying to wrap her dress around the child and smother the flames Mrs. Baird was frightfully burned about the arms, breast, neck and face. Her injuries may prove fatal. Coroner Meredith summoned a jury and held an inquest last night, with the following result:

J. C. Erhart sworn: I reside at 539 Chavez street. The deceased is my daughter. About 3 o'clock this afternoon I was sitting on the steps at my house. Heard an explosion. Thought it was a pistol. I went around the house. Saw the lady who lives next door with the child in her arms. They were both in flames. Took the child out of her arms. Laid it on the ground, and tried to put out the flames with my hands. I put the fire out, and handed the child to its mother, and went for a doctor. The child died about 4:30 o'clock.

Mrs. Mary E. Erhart sworn: I reside at No. 539 Chavez street. I was doing my family washing this afternoon. Mrs. Baird took my child over to her house to keep it for me, as I have two children sick with the measles, and Mrs. Baird was trying to assist me by taking charge of my child. I heard an explosion and went around the house and saw Mrs. Baird coming out of her house with my child in her arms. They were both in flames. My husband took the child and put the fire out. I then took the child into my house. We did everything for the child we could. She was very badly burned. It died shortly after the accident happened.

Eliza Witham sworn: I reside almost directly back of 539 Chavez street. This afternoon I had been watching Mrs. Baird from my window. She had been holding the baby up to the window so that my children could see it. They were making motions backward and forward to each other. I heard an explosion and screams. Looked over and noticed the flames coming out of the door. She then came out of the house with the baby in her arms. They were both covered with flames. She had her dress around the baby trying to smother the flames. I helped smother the fire on Mrs. Baird. Mrs. Baird told me she was trying to put some oil on the back of the stove, and that her elbow touched the coal-oil can and it fell on top of the stove and exploded. The stove was red-hot when I got there.

James Baird sworn: I reside at 539 Chavez street. Am a stairbuilder. When I came home about 4 this afternoon I found my wife lying on the bed and screaming. She was burned very badly. She told me she was putting two pieces of tin behind the stove. She had the baby in her arms. Her arm struck the coal-oil can on the shelf and it fell on top of the stove and exploded, burning them. She tried to smother the fire from the baby by putting her dress around it. My wife is delirious at the present time from the pain caused by the burning.

The jury found that Mary Elizabeth Erhart, a native of Kansas, aged about 1 year, came to her death May 31 by burns sustained by the explosion of a coal-oil can, said can having accidentally fallen in the stove at No. 539 Chavez street.

Raised a Row.

John Lydon and John Harrigan, the men who raised a row near the new depot Sunday night, appeared before Justice Austin yesterday morning for arraignment. They pleaded not guilty, and were tried at once. It was shown that they raised a row by hanging around a private residence, and when the lady of the house requested them to leave the premises, they made more noise than ever, and did not leave until they had smashed in a window with a shovel and broken a lot of furniture. They were arrested by Officer Robinson and booked for disorderly conduct, as was stated in yesterday's Times. After hearing the testimony the court fined them \$5 each, and assessed Lydon \$5, the sum in which the lady said she had been damaged. They paid up and were discharged.

COLD FACTS.

The distance from Los Angeles to San Bernardino is, in round numbers,

Sixty Miles.

It is about thirty miles from Los Angeles to Claremont, and consequently, you will infer that it is about thirty miles from Claremont to San Bernardino.

On the new California Central Railway (see the L. A. & S. P. R. Y. and L. A. S. P. R. Y.) there are the following named towns and townships between Los Angeles and Claremont, viz.:

No. 1.MAGNOLIA
No. 2.Cucamonga
No. 3.Etiwanda
No. 4.San Bernardino

The soil, climate, water supply and general adaptability to horticulture and residence, as well as other conditions requisite to the healthy growth of a community or town, are considered by eminent authorities just as favorable in that section as in the first named; and it is only a question of a short time when the resident population and productive capacity of the one will equal the other, saving, perhaps, the element of a suburban population doing business in Los Angeles.

Now, towns, to thrive, must have some surrounding country to support them, and the more good, fertile land a town has to back it up, other things being equal, the more rapid and prosperous will be its growth.

Perhaps this proposition has not occurred to you in this light before in selecting your field for investment. If it is considered sound, you are invited to apply to it

Recommending that property-owners interested in zanja on Washington street be instructed to provide for putting in grade that portion of the street and sidewalk, and be requested to pay one-half cost of piping zanja with 18-inch pipe. Specifications adopted for pipe-lines. Report adopted.

Recommending that petition of John J. Redick and J. Downey Harvey be granted, work to be done under supervision of City Surveyor and Zanjero. The petition asks permission to construct a cement trough in zanja in front of property owned by petitioners on Figueroa street. Adopted.

FROM SEWER COMMITTEE.
Recommending that petition of W. A. Lawler be denied, as his excuse is not valid. Adopted.

FROM BRIDGE COMMITTEE.
Recommending that floor of Buena Vista-street bridge over railroad track be protected by galvanized iron. Adopted.

Recommending that a gas-pipe railing be constructed on inside of sidewalk, and City Surveyor prepare plans and Clerk advertise for bids for one week. Adopted.

A plan for a band-stand in Sixth-street Park submitted for inspection. The stand, if constructed according to this plan, would cost \$2100. Plans adopted.

On motion, the architect was instructed to complete the specifications, and Clerk to advertise for bids for constructing the stand. A communication read from D. M. McGary, offering to the Southern Pacific Company, on part of property-owners on Alameda street, the sum of \$10,000 to remove their

track to the river front. Mr. McGary spoke on his proposition, and said the city could afford to make an equal offer to the company.

On motion, referred to Mayor and President of Council, to report at next meeting. Communication read from Richmond Fire Alarm Company, reporting reconstruction of system in this city. To Fire Commissioners.

Bills read and referred to Finance Committee.
A number of ordinances read and adopted on roll-call.

Matter of title of city to some lands on east side of river referred to Land Committee.

Mr. Collins called attention to the poor way in which the streets are being sprinkled, and moved to refer to Board of Health, to report at next meeting. After some discussion, carried.

Proposals received for laying 1800 feet of zanjas. To Zanja Committee.

Proposals for printing ordinances. Referred to Finance Committee.

Matter of charges of City Surveyor Eaton against Councilman Stearns. Mr. Kuhrt moved to lay over one week. Mr. Stearns wanted the matter disposed of as soon as possible. Motion carried.

Communication read from Henry Osborne protesting against building a ditch in front of his place. On motion, ordered that party who constructed the ditch be required to pipe, flume or abate the ditch.

The following petitions were read and referred to the proper committees:
From Mary Trantum, asking to have damages assessed for changing grade of Court-house street, near Flower.

From C. S. Miles et al., asking to have grade of Teed street established.

From J. H. Leyton, asking to have taxes wrongly paid refunded.

From Los Angeles Water Company, asking removal of obstruction on Marchessault street, between the church plaza and Alameda street.

From John McInnill et al., protesting against the proposed locating of lines of San Pedro street.

From John Dieterich et al., asking opening of Los Angeles street from Twelfth to Pico.

From Robert Pollard et al., asking erection of hydrants at corner of Workman and Derby, and corner of Hoff, Daly and Wells streets. Council adjourned.

"DR." GRIFFIN.

His Case Submitted to the Court Without Argument.

The G. Hamilton Griffin case was continued in Justice Austin's court yesterday afternoon at 2 o'clock. The doctor appeared in a light, striped suit of clothes, and the same large, full-blown rose decorated the left lapel of his coat.

After quite a flourish of trumpets, the doctor took the stand, and, in an injured tone of voice, testified that he had found a few of his receipts. Then he passed over the following bills:

The Los Angeles Rubber Stamp Company, for \$2.75. Marked paid, but not received.

East Side Champion, for \$0.75. Paid and received.

Express Publishing Company, for \$25. Paid and received. Same company, for \$17.75; one credit for \$25, as above, and another for \$15, leaving a balance of \$31.75. Times for \$5.40. Paid and received.

Libune for \$30. Paid.

Sprague & Kodelaver for \$19. Paid and received.

Los Angeles Engraving Company for \$10. Paid and received.

"There are many of the small receipts," he continued, "but they amount to a good deal. I paid a good many of them without taking any receipts, for I knew the persons to be all right."

W. J. Church was put on the stand and the attorney attempted to ask him some questions as to his desire to prosecute the defendant, but the Court would not admit the testimony and the case was submitted without argument. The Court rendered a decision before Wednesday morning at 10 o'clock, and the case was continued to that time.

THE CIRCUIT COURT.

Judge E. M. Ross Opens the May Term.

The United States Circuit Court, Judge Ross presiding, met for the May session yesterday morning. The courtroom was been handsomely arranged. When the Judge took his seat quite a number of attorneys were present to give the new court a good send-off. The first business coming before the court was the reading of J. Marion Brooks's commission appointing him United States District Attorney. It was ordered engrossed on the minutes of the court, and the oath of office was administered.

The case of the Southern Pacific Railroad Company vs. Aguirre came up, and on motion it was ordered that the cause be dismissed. The court then took a recess until 2 o'clock p.m.

On motion of counsel for Chan, to obtain leave to file a bill to restrain the process of three several actions of law now pending in the Circuit Court, the matter was argued and continued until today at 10 o'clock a.m.

On Monday a jury commissioner will be appointed and a jury will be drawn.

A Brilliant Amateur Performance at Pasadena.

Some of Pasadena's most prominent society and musical residents are making elaborate preparations for the production of the fairy spectacular opera, *The Triumph of Love*, to come off Tuesday evening, May 3d, at Williams's Hall. Miss Jennie Winston has the leading role of the "Goddess of Love." John E. Costello that of "Robert, Duke of Burgundy." Miss Alice Freeman will be the "Queen of the Universe." The cast numbers sixty. The affair promises to be the most brilliant and attractive amateur entertainment ever attempted in Pasadena.

Runaway Caught.

A large-sized excitement took place at the police station, yesterday afternoon, at 4 o'clock. Several officers were hanging about the office, trying to keep cool, when a snorting horse, which had just kicked loose from a light buggy, came tearing down Second street. Officer Arguello started after the runaway, and succeeded in catching him on Fifth street. No one was hurt, and the buggy was but slightly damaged.

Says It's All Right.

Harry Opheir, the drummer, who was accused a few weeks ago of having given a forged check to Sillman & Co. on a New York firm, returned yesterday, and says he is positive that he can make himself all right. A warrant was sworn out against him at the time, but the drummer could not be found, and the warrant had not been served up to yesterday.

Died Away From Home.

Henry C. G. Stahlmann, a large brewer of St. Paul, Minn., proprietor of the Stahlmann Brewing Company, who arrived here March 1st for his health, died yesterday in this city. His wife starts for home today with the remains.

Marriage Licenses.

Marriage licenses were issued yesterday to Everett B. Trefethern and Hattie N. Beckett, Emmett B. Norman and Viola S. Shrode, John H. Smith and Susan Flannigan, and W. Selingman and D. Hillers.

"SMOOTHY'S" SUITS.

HE BRINGS TWO MORE ACTIONS AGAINST "THE TIMES."

Two Suits Based on the Editorials of Last Saturday and Sunday, Asking \$50,000 Damages in Each Case.

H. H. Boyce yesterday filed in the office of the County Clerk two more libel suits against THE TIMES. The gist of the complaints follows:

Suit No. 2 quotes the editorial in Saturday's TIMES, headed "Mr. Boyce and His Libel Suit."

The complaint then alleges that said publication was made with intent to convey the idea, and was so understood, that Boyce attempted to perpetrate a steal upon and defraud one of his partners in a transaction in Gladstone land. That said publication meant, and was understood to mean, that Boyce, during the war, embezzled money belonging to soldiers and put in his hands to be transmitted to their families.

That said publication meant, and was understood to mean, that Boyce deserted his wife and committed the crime of adultery by living with some other woman.

That said publication meant, and was understood to mean, that Boyce robbed his employers, Van Antwerp, Bragg & Co., school-book publishers, of Cincinnati, and that he was dismissed by them, with threats of prosecution for embezzlement.

That said publication meant, and was understood to mean, that Boyce was expelled from the Masonic order for grossly immoral conduct.

That said publication meant, and was understood to mean, that Boyce has a long-standing and extremely black record, and that the same is graven against his name, and that the same is odious in Bradstreet's Commercial Agency's records in Chicago, San Francisco and Los Angeles, and that Boyce's record is extremely bad on account of dishonorable conduct and fraud on his part.

That said publication meant, and was understood to mean, that Boyce was obliged to withdraw his application to become a member of the Military Order of the Loyal Legion, because of some dishonorable conduct by him.

That said publication meant, and was intended to mean, that Boyce has been guilty of felony by giving bribes to members of the Legislature and to city and county officials, and that he has had a career as a briber and a corruptionist of the vulgar sort.

That said publication meant, and was understood to mean, that Boyce has been guilty of corruption and bribery in politics, and has been engaged in corrupt exploits as a politician.

That said publication meant, and was understood to mean, that Boyce has not a good name, reputation and credit.

That said language meant, and was understood to mean, that Boyce is an impostor, scoundrel, pretender and confidence operator, and a bad man, deserving exposure, and has been guilty of artful practices and systematic deception.

That every part of said publication is false and libelous, and was published by defendant with intent to defame and injure Boyce; and that he has been injured in his "good name, reputation and credit" to the amount of \$50,000, for which he prays judgment with costs.

SUIT NUMBER THREE.

Suit No. 3 recites the editorial in Sunday's TIMES headed, "Mr. Boyce Publishes a Card."

The complaint then sets forth that said publication meant, and was understood to mean, that Boyce is a consummate hypocrite, and is engaged in fraudulent schemes and uses deceptive means for the purpose of defrauding all persons with whom he has business relations.

That said publication meant, and was understood to mean, that Boyce has a smirched character and a crooked career, and has been guilty of dishonorable and criminal acts, and is constantly seeking to impose upon and defraud strangers.

That said publication meant, and was understood to mean, that Boyce is a pretender and confidence operator, and trickster and polished scoundrel; and that he has been guilty of doctoring and forging documents to disprove charges against his character.

That said publication meant, and was understood to mean, that Boyce has been guilty of the crime of embezzlement and other forms of misappropriation, and has acknowledged his guilt by making restitution under fear of criminal prosecution.

That said publication meant, and was understood to mean, that Boyce has been guilty of a series of crimes and frauds, and is in constant fear of exposure, and is an impostor with a dark and crooked career, covering a period of about twenty years.

Boyce further alleges that all these charges are false and libelous, and were published maliciously and with intent to defame and injure him, Boyce; and that by reason thereof he, Boyce, has been damaged in his "good name, reputation and credit," to the amount of \$50,000, for which sum he prays judgment with costs.

NATIONAL OPERA COMPANY.
Arrangements for its Appearance Here Completed.

Managers McLain and Lehman announce the appearance here of the above company at the Pavilion, on the evenings of May 10th, 17th, 18th and 19th, and Thursday matinee. The repertoire will consist of the operas that have made the greatest success during their engagement in San Francisco, which are *Lakme*, *Faust*, *Lohengrin*, *Merry Wives of Windsor* and *Flying Dutchman*.

The public are promised that the whole organization will be brought here in its entirety, and not one item will be lacking, so as to make their performances here on the same scale of grandeur as their representations in San Francisco. The prices have been graded to meet the requirements of all. The owners of the Pavilion are busy getting it into shape. They propose to seat it in such a way that every seat will command a full view of the stage. The season sale has been very large, and the indications are that the Pavilion will be crowded at each performance.

CASTING OUT SNAKES.

Remarkable Sufferings of a Man Whose Stomach Was a Reptile's Nest.

About three years ago, writes a Williamsport, Pa., correspondent of the New York Herald, Mr. John Longwell, of Charleston, Tioga county, began to fall in health. He had always been a strong, rugged man, weighing about 180 pounds. For about two years he kept getting thinner and weaker until he weighed but 128 pounds. During that time he experienced strange sensations in the stomach as if some living thing had taken up its abode there. He felt, or imagined that he felt, something moving about in his stomach at times. On the 20th day of September, 1885, this belief was confirmed. At Mr. Longwell's solicitation, and to humor his supposed hallucination, Dr. C. W. Webb prepared a powerful emetic, having taken which Mr. Longwell, after suffering great pain and retching violently, emitted from his stomach two live snakes, twelve inches and fourteen inches in length, respectively. An account of the singular occurrence was published at the time, but the truth was doubted by many who did not know Mr. Longwell to be a man of unimpeachable veracity. About two months subsequently to the vomiting of the snakes Mr. Longwell felt a recurrence of the crawling sensation in his stomach. Soon after that he was taken with fits, during which his convulsions were horrible. These fits came upon him at intervals of four to six weeks, and lasted about an hour. He lost his appetite and became very thin. A milk diet appeared to agree with him better than any other, but he could not escape the frequent visitations of agony and convulsions. Three weeks ago last Saturday Mr. Longwell had an exceptionally severe fit, which nearly cost him his life. At that time a ridge was observed on his stomach, and his attendants were convinced that another snake was living within him. The supposition was well founded, for yesterday afternoon at about 3 o'clock, during an attack which caused him untold agony and left him unconscious for upward of an hour, Mr. Longwell ejected a garter snake that was eight and a half inches long and a fraction over one-half inch in diameter. Mrs. Longwell, who was with her husband at the time, states that when the snake protruded about four inches from the sufferer's mouth, it appeared to stick fast, although she did not recognize it as a snake. Finally the entire reptile was ejected, but not before Mr. Longwell in his agonizing convulsions had bitten it almost through in three places. Neighbors rushing in to assist Mrs. Longwell found the snake in a vessel where it had fallen. They took it out and washed it.

Your correspondent saw the snake in Dr. Webb's office to-day, and conversed with Mr. and Mrs. Longwell. There is not the slightest doubt of the entire truthfulness of their statement. It is supposed that in drinking from a pool three years ago Mr. Longwell swallowed the ovum from which the snakes grew. This is somewhat corroborated by the fact that the reptile which made its appearance yesterday is evidently of about three years' growth, and about one year older than the two which the gentleman ejected last September. All were common garter snakes, a species that abounds in this region.

Mr. Longwell is feeling better since turning out his third tenant, but his stomach is very sore. He feels a natural solicitude to know whether or not he is still a peregrinating den of snakes, and is also somewhat concerned to know whether the family that colonized his interior department has left progeny to grow up and succeed them.

Sowing Good Seed.

Home is the hot-bed in which the seed of good manners should be sown; the parents are the gardeners who should pluck out all weeds from their tender plants; with proper care and culture these plants will blossom into flowers of courtesy. It is to the homes in this broad land, where so many youthful characters are forming, that improvement is looked for in manners; as they are there trained, such will their bearing in future life be. Their good manners should be brought into practice toward their parents and one another, not held in reserve for the benefit of strangers.

Many *gaucheries* now committed would be avoided if good manners were instilled in children while they are under home influence. Children are quick to imitate and the example of perfect courtesy among the older members of the family will be closely followed by childish imitators. A future of pleasing possibilities is before children who have been taught that good manners like charity, begin at home and should be brought into every day use there. When grown to men and women they may not achieve anything great or heroic, but rest assured, they will, through some kindly act or courtesy, comfort some poor creature, whose burden in life is at times too heavy to bear. Unfortunately rudeness and bad manners are not confined to children. Who has not seen the young lady taking possession of a seat in a crowded horse-car, vacated for her by one who probably remembers early training and who is rewarded for his courtesy by a chill stare in lieu of a kindly "thank you?" On such occasions 'tis hard to refrain from exclaiming with Burns:

"Oh! wad some power the giffle gie us
To see ourselves as others see us.
It wad free many a blunder frae us
An' foolish notion."

—Mrs. Ellis L. Mumma, in Good Housekeeping.

Fifty years ago the boys had a very hard time of it. There were no furnaces in the house and few stoves, bedrooms as cold and colder than barns nowadays; warming-pans for bed at night in constant use, as the bed-children were like two cakes of ice. Washing was done by first breaking through the ice found in the pitchers over night. All cooking was done by wood fires, and the wood had to be cut by the boys.

A ten-year-old Boston girl says the Record, asked her teacher the other day if India was our father country, just as England was our mother country. "No, indeed," was the answer. "Why do you ask that?" "Nothing, only I see it's Farther India on the map."

TWO FRIENDS MEET.

"Hello! old fellow. What have you been doing to yourself? You look like a subject for the undertaker," exclaimed the man on the right.

"I have been taking mercury and potash mixtures until they have nearly ruined me," squeaked the old man on crutches.

"And I," said the other, "have been taking the genuine Swift's Specific, which has built me up from the first dose."

SWIFT'S SPECIFIC.

Nature's own remedy, made from roots gathered from the forests of Georgia. The method by which it is made was obtained by a half-breed from the Creek Indians, who inhabited a certain portion of Georgia, which was communicated to one of the early settlers, and thus the formula has been handed down to the present day. The demand has been increasing until a \$100,000 laboratory is now necessary to supply the trade. A foreign demand has been created, and enlarged facilities will be necessary to meet it. This great

A NEW TREATMENT.

FREE TESTS AT OFFICE.

This disease is treated upon a new principle, founded upon the fact that the disease is parasitic in its origin.

(PARASITES MAGNIFIED 450 TIMES.)

Our treatment consists in using remedies in the form of an ointment, which is sprayed through the head and throat, reaching every part of the diseased mucous membrane. The remedy remains in the head for some time, passes steadily into vapor, and reaches cells filled with mucus, impossible to reach by medicine in liquid or powdered form. The treatment is painless, pleasant and effective, curing fully 90 per cent of cases. Price of treatment, \$1 per box, six boxes for \$5. Apparatus for spraying same, \$5. Treatment guaranteed.

HOME TREATMENT.

Prices reduced for treatment which will last for from one to three months, including inhaler, to \$6. This is the genuine oxygen, and inferior to none.

INSECTICIDES.

Summer and Spring Washes and Remedies Against Insect Pests.

The following remedies were recommended at the Fruit-growers' Convention, held under the auspices of the State Board of Horticulture, at Riverside, April 11th to 14th, 1887, for evergreen trees.

For cottony cushion or white scale (*Icerya Purcellii*) red scale on orange trees, also for the black scale, *Lecanium Oleae*, on olive trees, Prof. Riley recommends:

1. Kerosene, 2 gallons=67 per cent.
Common or whale-oil soap, 1 lb=33 per cent.

Water, 1 gallon=33 per cent.
Heat the solution of soap and add it boiling hot to the kerosene. Churn the mixture by means of a force pump, and spray nozzle for five or ten minutes. The emulsion, if perfect, forms a cream, which thickens on cooling and should adhere without oiliness to the surface of glass. Dilute before using one part of the emulsion with nine parts of hot water. The above formula gives three gallons of emulsion and makes, when diluted, thirty gallons of wash.

Note.—It is of the greatest importance that the above mode of preparation is followed strictly, otherwise the result may produce an unstable emulsion, which has all the objectionable features of a mixture of water and kerosene.

The emulsion can be easily and quickly made by using a good force pump, so constructed that it can be inserted directly into the liquid, which must be kept in constant and violent agitation, by forcing it through some form of spray nozzle back into the same receptacle.

A slightly different formula was recommended by Mr. Ellwood Cooper: Five gallons best kerosene oil, 150 test, one and a fourth pounds good common soap, or one bar of a half of soap usually sold as pound packages; two and a half gallons of water. This makes the emulsion. When using dilute six and a half (to seven) gallons of water to each gallon of oil, and to this mixture add two and a half pounds of good home-made soap dissolved in boiling water. After this mixing is done with boiling water. We usually have the solution up to 140° in the tank from which we spray.

Recommended by Prof. Riley against the cottony cushion, or white scale:

PROF. RILEY'S COMPOUND 152.

One pound of caustic soda is dissolved in one and one-half gallons of water; then the two pounds of resin and one pound of tallow is dissolved in one quart of the lye. After the resin is all well dissolved by moderate heat the lye is added slowly while cooking, under continued stirring; the mixture, if good, will become dark brown and thick. Should it become whitish and flocky (this is caused by too much and too strong lye), water should be added, and it will become right again. This will make twenty-two pints of soap for water should be added to make that amount, after the lye is in, at a cost of 11 cents, excluding labor and fuel in preparing it, which amounts to but little, and will be sufficient for forty-four gallons of wash sprayed well. This is for *Icerya*.

Recommended by B. M. Lelong: Recipe for making fish-oil soap for summer wash, ingredients for one barrel of fifty gallons:

Potash, 14
Caustic soda, 98 per cent. 8
Lime, unslacked, 5
Fish oil, polar or seal, 10
First dissolve the soda and potash by placing them together in twelve gallons of water. Second, slack the lime in the barrel to be used, in two gallons of water, then add the fish oil to the lime and stir well until the lime and the oil have turned to a thick batter, then add the soda and potash, water boiling hot, and stir well with a dasher for five minutes or more; then leave standing four or six hours; at the end of four or six hours fill up with cold water; do not pour in all the water at once, but about two buckets at a time. Stir well as the first two buckets go in, to prevent lumps; use the following day. Apply cold, one pound to the gallon of water. In dissolving it do not boil, but weigh the amount to be used, place in a barrel, and on top of it pour hot water, about one bucket to every hundred pounds. After pouring in the hot water stir lively with a dasher until it is entirely dissolved, then reduce with cold water sufficiently thin enough to pass through the strainer; then place in the tank and fill up with water; stir well and it is ready for use.

FOR DECIDUOUS TREES.—Recommended by W. G. Klee. A summer wash against scale insects affecting deciduous trees, as well as against pear slug, saw-fly larvae and black scale fungus of the apple and pear. (See Bulletin No. 5 by the Inspector of Fruit Pests):

Dissolve thirty pounds whale-oil soap (80 per cent. soap at the most, costing 5 cents per pound) in sixty gallons of water, by heating the two together thoroughly. Boil three pounds of lye (American concentrated is what we have used) with six pounds of sulphur and a couple of gallons of water. When thoroughly dissolved it is a dark brown liquid (chemically sulphide of soda). Mix the two, the soap and the sulphide of soda well, and allow them to boil for about half an hour, then add about ninety gallons of water to the mixture, and it is ready for use. Do not allow any of the mixtures to cool while mixing. Apply it warm, at about 130° F., by means of a spray pump. Used warm, its effect is better, and less material is required than when cold.

Recommended by W. G. Klee against the codlin moth: Burlap bands about six inches wide, fastened with a tack above, drawing the band close to the tree, leaving it loose at the lower edge. These bands should not be more than a foot from the ground, and the bark on the trunk must be smooth and clean. In large trees place rags in the crotches. Bands must be placed on the trees as early as May 15th, and must be examined every week. The ground must be perfectly smooth, especially around the tree; no rubbish or boards to be allowed in the orchard as the larvae will hide in them. These measures, in addition to the picking off of

infested fruit, have proved a great protection in comparatively isolated places whenever the rules have been followed out strictly. In addition the spraying with paris green and london purple is recommended for trial.

Proportions used: The following samples have been analyzed at the University of California, by A. Weber, under the direction of Prof. Hilgard, and indicate clearly that they contain a larger amount of arsenic than common paris green ought to contain; in fact, that they are adulterated with arsenious acid.

Per cent.
No. 2..... 55.7
No. 3..... 38.3
No. 4..... 54.4

As the recommendations of W. G. Klee, in Bulletin No. 6, of one pound to fifty-four gallons of water, was based on a supposed percentage of from 15 to 20 per cent., as used by the State Entomologist of Illinois, the quantity of water to be used to the pound must be placed at one pound to about one hundred and eighty to two hundred gallons. Sample No. 3 will most likely present the average of the paris green in market, being bought from a leading San Francisco firm. It is recommended to strain the paris green, and it must be constantly stirred, taking care that it does not clog the nozzle. A nozzle that can be opened, with a large aperture in case of clogging, is preferable, but the spray must be as fine as possible, and every fruit reached.

Time to apply: Apply the first time just after the trees are fairly out of bloom.

The second time, ten to twelve days afterwards. Do not use any arsenites after the fruits have commenced dropping on their stems, as there is danger connected with its use that late. If possible, choose cloudy weather for spraying.

LONDON PURPLE.
London purple is another arsenical compound. It is the residue from the manufacture of aniline dyes, and contains lime, arsenious acid and carbonaceous matter. It is more soluble, more adhesive, less poisonous, and generally less expensive than paris green.

This compound is also exceedingly variable in its percentage. It contains generally considerable free arsenious acid, and for this reason should also be used in cloudy weather, as it may, if used too strong, burn the foliage. It is mixed to a paste and then diluted.

Owing to the uncertainty of the percentage of this compound we cannot recommend any definite proportion, but think that one pound to 100 gallons for the first spraying and one pound to 200 gallons for the second will be right.

It is clear that if these remedies prove efficacious, we must have the compounds made by reliable parties here in the State, so that growers can obtain material of a uniform strength.

The Courts.

In Judge O'Melveny's court yesterday the sentence of James Murray was continued until a motion for a new trial is disposed of.

L. B. Cohn was tried for assault with a deadly weapon. The jury found him guilty of assault.

JUDGE GARDNER.

In the habeas corpus case of Alma A. Ashe an order was made allowing the Sheriff to remove said child to the residence of Mrs. E. B. Crocker, there to be kept until the disposal of the pending controversy.

JUDGE HUTTON.

James Wilson and John E. Ellis, natives of Great Britain, were admitted to citizenship.

In Brobeck vs. Brobeck a decree was granted as prayed for.

JUSTICE AUSTIN.

Edward Roach, for carrying concealed weapons, was fined \$5.

H. Higgins, for gambling, was fined \$40.

"A. Stranger" and C. Buckley, for gambling, were fined \$10.

Porter Ashe, for carrying concealed weapons, was dismissed.

Thirty gamblers failed to appear. Each had \$20 put up, which was forfeited.

G. S. Little, for disturbing the peace, was fined \$3.

John Stern, for disturbing the peace, was fined \$3.

Thomas Moriarty, for disturbing the peace, was fined \$5.

Charles Albert, for disturbing the peace, was fined \$5.

"Dr." Hamilton Griffin's case was continued to May 4th, at 10 a.m.

F. Guggler, for battery, was fined \$10.

JUSTICE TAYLOR.

The case of Surran, for resisting an officer, was set for May 16th, at 2 p.m.

Board of Supervisors.

MONDAY, May 2d.

Board met pursuant to adjournment.

A wharf franchise at Wilmington was granted to William Banning.

Notice was received from the clerk of the town of Pomona that C. Howe, F. S. Bassett and E. T. Palmer have been elected Fire Commissioners of that town for one year.

A communication was received, signed by members of the bar and attaches of the superior court, presenting to the county portraits of Judge Cheney and ex-Judge Brunson. The portraits were accepted and ordered placed on the walls of the Superior Court room.

Election returns from Azusa were filed, showing that the district has voted to raise \$750 by special tax for school purposes. Referred to the October session.

Adjourned to May 3d, at 10 a.m.
